ANTONIS ROUSSOS

Front-End Developer (React • Tailwind • JavaScript)
Athens, Greece — Open to Remote
Email • LinkedIn • GitHub • Portfolio

SUMMARY

Front-End Developer with **1+ year of production experience**, specializing in **React (SPA)** and **Tailwind CSS**. Built and continuously evolved a large-scale React single-page application, delivering new features and maintaining existing code through structured **GitHub pull requests**. Strong focus on clean UI architecture, responsive design, and long-term maintainability.

CORE SKILLS

- **Frontend:** HTML5, CSS3, Tailwind CSS, Responsive Design
- **JavaScript:** ES6+, Async/Await, Fetch API
- **Frameworks:** React (SPA, component-based architecture, hooks)
- **Workflow:** Git, GitHub PRs, code reviews
- **Extras:** Refactoring, UI consistency, performance awareness

PROFESSIONAL EXPERIENCE

Front-End Developer — eLearning Industry | 2025

- Developed and maintained production UI using **React** and **Tailwind CSS**.
- Delivered **new features and bug fixes** through structured GitHub pull requests.
- Worked on an existing codebase, fixing issues and improving readability and maintainability.
- Collaborated with team members to align implementation with product requirements.

SELECTED PROJECTS

Personal Portfolio — Large-Scale React SPA

- Designed and developed a **React single-page application** from scratch.
- Continuously extended the project by adding **new features** via subsequent PRs.
- Fixed and refactored existing code to improve structure and maintainability.
- Implemented reusable components and responsive layouts across the application.

Pokedex v2 — Tailwind Migration

- Migrated a custom CSS codebase to **Tailwind CSS**, improving consistency and scalability.
- Implemented UI features such as pagination and favourites using reusable components.

EDUCATION

BSc (Hons) Computer Games Development — University of Derby
